

CSV Cleanup — Scope + Checklist

Portfolio-friendly overview (no client data).

Included (cleanup):

- Remove duplicates (exact + near-duplicates when possible)
- Standardize columns (e.g., Name, Title, Email, Phone, Company, City, State, Website)
- Fix formatting issues (extra spaces, mixed casing, broken rows)
- Normalize phone numbers (when possible)
- Deliver an import-ready CSV + short summary

Not included (unless custom add-on):

- Creating brand-new leads from scratch
- Filling missing emails/phones/websites for every row
- Verification of deliverability (separate service)

What I need from you:

- Upload CSV/XLSX
- Desired final columns/order (or a sample row)
- Any rules (remove generic emails like info@/admin@, country/state format, etc.)

Typical delivery: 24–48h (depends on rows + complexity).
